

Argyll & Bute
Health and Social Care Partnership

Developing Community Teams

Our vision is to build on the excellent services currently provide across Oban Lorn & the Isles to ensure that your local services can support you in ways that are safe, efficient and effective. As we consider possible future models of working that provide streamlined access to community services such as nursing, social work and care, we want to explain our proposals and hear your thoughts.

Please join us to share your ideas:
